PROJECTS

Mess Maintenance System Jan, 10, 2024 - Apr, 04, 2024

Mentor: **Dr. K.Sridhar Patnaik** | Team Size: **4**

Key Skills: **HTML** **CSS** **JAVASCRIPT** **FIREBASE**

The mess maintenance project is initiated in response to various challenges faced in the current mess or canteen system, including issues with food quality, service efficiency. The project's scope extends to key areas such as menu planning, procurement of ingredients, food preparation and serving methodologies. The methodology for implementing this project involves gathering user feedback through surveys and leveraging technology for more efficient service delivery. This project stands as a crucial step towards a more efficient and satisfactory mess maintenance system
